20. The following questions ask about your preferences regarding an increase in the number of students at your School. The various increases described below will impact both district budgetary concerns and ethnic and economic diversity. Maximum class size is defined as 20 students per class in grades K to 3, and 32 students per class in grades 4 to 12. Currently SCUSD has an average of 19-20 students per class in grades K to 3 and grades 4-12 average class size is 23-27. District average class size for 2007-2008 was 24.1 for all grades. Using a scale of 1 to 5, where 1 is strongly oppose and 5 is strongly support, what is your level of support for increasing the number of students?

	Strongly Oppose	Oppose	Neither Oppose or Support	Support	Strongly Support	Response Count
Maintain current size (~340 students)	8.6% (6)	2.9% (2)	17.1% (12)	28.6% (20)	42.9% (30)	70
Grow to maximum class size without adding any classrooms (+80 students by filling classroom to maximum, ~420 students)	30.9% (21)	16.2% (11)	19.1% (13)	23.5% (16)	10.3% (7)	68
Increase by 1 classroom of 20 students per class at each mixed grade level (i.e. add 5 classes = +100 students, ~440 students)	26.9% (18)	16.4% (11)	31.3% (21)	17.9% (12)	7.5% (5)	67
Increase by 1 classroom of maximum size at each mixed grade level (i.e. add +180 students, ~520 students)	33.8% (23)	25.0% (17)	20.6% (14)	16.2% (11)	4.4% (3)	68
Increase by 1 classroom of						

maximum size at each mixed grade level and add a small program such as one of SCUSD's bilingual programs (i.e. add +280 students,~620 students)	27.9% (19)	27.9% (19)	23.5% (16)	19.1% (13)	1.5% (1)	68
Increase size gradually over 9 years by adding 1 classroom per year starting with kindergarten class (adding students yearly to a maximum size of 440 students)	23.5% (16)	13.2% (9)	22.1% (15)	35.3% (24)	5.9% (4)	68

21. The following questions ask about your opinion regarding various general consolidation possibilities. A closure involves closing a school, the choice of a new school for those children, and the reassignment of administration and staff for the closed school. A merger involves the joining of two separate programs/schools with different students, teachers and administrators into a single school with a common student body, curriculum, teachers and administration. A merger would involve at least some change in the leadership, teaching staff, curriculum, and/or size. Using a scale of 1 to 5, where 1 is strongly opposed and 5 is strongly support, how likely are you to support one of the following options?

	Strongly Oppose	Oppose	Neither Oppose or Support	Support	Strongly Support	Response Count
In general, reducing the number of schools from 86 to 70	42.3% (30)	14.1% (10)	22.5% (16)	18.3% (13)	2.8% (2)	71
In general, merging 2 pairs of schools (4 schools down to 2 schools)	33.8% (24)	15.5% (11)	22.5% (16)	23.9% (17)	4.2% (3)	71
In general, closing 2 schools and moving 2 different schools into those buildings	41.7% (30)	23.6% (17)	19.4% (14)	13.9% (10)	1.4% (1)	72
